TAKING SONIM PHONE COMMUNICATION TO THE NEXT LEVEL WITH THE XPAND NFC

The Sonim XPand Near Field Communication (NFC) is a tag reader module that delivers online field record and alert management for guard tour verification, facilities management, and fleet maintenance to help streamline enterprise maintenance operations. The NFC tool saves time, increases data accuracy, and improves employee safety. Customer satisfactoin and proper billing/analytics are maximized by replacing inaccurate hard-copy timesheets, activity reports, and work orders.

The Sonim XPand NFC is rated IP-68, making the accessory completely dust proof and water submersible up to 6.5 feet/2 meter. In addition, the NFC is Mil-SPEC 810G certified for drops up to 6.5 feet/2 meter. Not only does this accessory have the ability to read class tags up to 1.6 inches/4 cm, it can read and write all NFC certified tag types on both metallic and non-metallic surfaces. After installing the software, the Sonim Near Field Communication is ready for any rugged environment.

In addition, the Sonim XPand NFC is backed by its industry leading 3 year comprehensive warranty.
